USE OF PUSHBUTTON LOCKS

All employees are reminded that pushbutton door locks, which are operated by pushing a series of buttons in a preset sequence, are not approved to secure classified material in an unattended area even for brief periods of time.

Pushbutton locks serve only as a convenience to allow authorized personnel access into a secure area without requiring someone already in the area to come and open the door.

FOR THE DIRECTOR OF CENTRAL INTELLIGENCE:

JOHN F. BLAKE Deputy Director for Administration

DISTRIBUTION: ALL EMPLOYEES (1-6)
